

Paper Star Album Instructions

1. Select (5) 8x8 sheets of double-sided paper (Print on both sides)
2. On each sheet fold one side 2 ½ inches and then fold to the center.
3. Staple, or use a brad or eyelet at the edge of each sheet to hold the pocket closed. (I alternate the location of the staple to keep the pages from getting thick in one area.
4. Glue one folded side to another until all of the pages are connected forming a book.
5. Cut two (2) chipboard pieces 4" x 5.5" and cover and glue each chipboard piece with a pre-cut photo mat or paper cut to 4.5" x 6".
6. Cut a piece of ribbon about 24 inches long.
7. Adhere the ribbon between the cover and the first paper page so that the ribbon is between the first page and the exposed chipboard.
8. Glue the chipboard covers to the album.
9. Embellish pages with stickers, photos, title stickers, brads, etc.
